I) Foreword

This annual policing plan is the third and final plan developed in support of An Garda Síochána’s Strategy Statement July 2016 – 2018. It contains concrete measurable initiatives which, when achieved, will support An Garda Síochána in renewing its culture; growing and developing its workforce; and harnessing technology to the benefit of Ireland’s citizens and all who visit our shores. The plan will also see An Garda Síochána progress a number of recommendations from Garda Inspectorate Report 11 – Changing Policing in Ireland.

Our community policing ethos is immensely important to us. The last number of years have been challenging for An Garda Síochána, however, addressing those challenges will improve and strengthen the organisation and ultimately, will result in better service delivery to all of the communities we serve.

Reforms prioritised for 2018 include the composition and structure of the Garda workforce, resource deployment, supervision, data quality (to include road traffic enforcement data), cultural renewal and victim services. Further details on these areas are contained in the following chapters.

We are working on multiple complex projects across a wide range of service areas. We face challenges in a number of these areas and it will take considerable time to progress many of the structural and cultural reforms needed. The projects which will have the most significant positive impact for the organisation and the communities we serve will be prioritised. The modernisation of our Human Resources and Information Technology systems will be central to our success.

These significant challenges will have to be managed within a fixed financial structure and every effort will be made to utilise all resources available to us in the most efficient and effective manner. In 2018 An Garda Síochána will operate within its allocated budget of €1,542,522,000 and available resources which are estimated to reach 13834 Gardaí, 2992 civilian personnel and 1390 Garda Reserves by year end 2018.

Acutely aware of the complex political negotiations and possible policing implications arising from “Brexit”, An Garda Síochána is continuously scanning the political, policing and security environment to ensure preparedness for possible outcomes. A high level team composed of managers from across the organisation has been established and will support the Government, as appropriate, as this situation evolves.

The results of the recent Public Attitudes Survey show that, during 2017, the number of people who say they have been victims of crime has fallen, victims are saying they are happier with the service we provide to them, the fear of crime is decreasing and satisfaction levels with our overall service are improving. The level of public trust in An Garda Síochána remains high by European standards. This is due to the commitment and dedication of our people, a commitment to public service, a commitment to preventing crime from happening in the first place, and, when it does, supporting the victims of crime and investigating it professionally. The Public Attitude Survey is an increasingly important benchmark against which we measure our success. In 2017 we included a statistically significant group of young people (16-18 years old) for the first time. This will help establish a baseline for measuring our relationship and interaction with young people in our communities.

In 2018, we will re-double our efforts to deliver a policing and security service that the people of Ireland are proud of. We will do this in conjunction with our key external partners in the Policing Authority, Garda Inspectorate and Garda Síochána Ombudsman Commission. I am confident that we will deliver an excellent and continuously improving policing and security service for the people we serve.

Dónall Ó Cualáin Commissioner

IV) Policing Plan Governance

Responsibility for both actioning and reporting upon the progress of each Policing Plan initiative has been assigned to an Assistant Commissioner or Executive Director. These senior managers will report to the Commissioner on the progress of each initiative on a monthly basis. The reporting process will highlight where we are achieving, where we face challenges and what corrective action we are undertaking where required. These senior managers will monitor national performance against targets and, where appropriate, they will communicate with local managers to ensure successful implementation of the initiatives concerned.

Progress made in respect of each initiative will be reported upon to the Policing Authority on a monthly basis.

Each Regional Assistant Commissioner and their management team have a responsibility to ensure that appropriate action takes place to support the national policing plan goals and will ensure that policing plan goals relevant to their areas are included in their respective District, Divisional and Regional policing plans.

The actions outlined in this document represent the priorities which An Garda Síochána intends to progress in 2018. They also reflect the priorities set by the Minister of Justice and Equality and the Policing Authority, with whom we have worked closely in developing this plan. The plan is anchored in a wide stakeholder consultation process and An Garda Síochána is keen to receive any feedback internal stakeholders or the public have on the plan and its implementation.

Feedback can be provided at any time to the Garda Strategic Planning Unit at policingplan@garda.ie or by writing to: An Garda Síochána, Strategic Planning, Block B, Ashtown Gate, Navan Road, Dublin 15, D15 NP9Y.

Projected Outcome(s)

Policing Plan 2018 underlines An Garda Síochána’s commitment to preventing crime before it occurs, as well as supporting and vindicating the rights of victims when crime does occur. Our success in doing so will be visible through the following outcomes:

- Public Attitudes Survey - Increased victim satisfaction from 57% to 65% in 2018
- Public Attitudes Survey – Increase from 61% to 75% of those who say that fear of crime does not impact on their quality of life in 2018
- Public Attitudes Survey - Public opinion regarding the ability of An Garda Síochána to tackle crime increased from 57% to 60% in 2018
- Following recent downward trends, levels of incidents of burglary and robbery are maintained in 2018

(Public Attitudes Survey targets are measured against a 2016 baseline)

5) Community Engagement and Public Safety

Projected Outcome(s)

Community policing has been central to An Garda Síochána’s policing approach since our foundation. The Policing Plan 2018 will support the evolution of that ethos and our community oriented philosophy. Community engagement and public safety will become the primary focus of policing in Ireland. This evolution will show in our commitment to preventing crime, making communities safer and engaging with all sections of society. Our success in doing this will be visible in the following outcomes:

- **Public Attitudes Survey** - Reduce those who see crime as a very serious or serious problem locally from 24% to 20% in 2018
- **Public Attitudes Survey** - Increase Garda visibility from 35% to 40% in 2018
- **Public Attitudes Survey** - Public perception that An Garda Síochána is community focused is increased from 61% to 67% in 2018
- **Public Attitudes Survey** - Public satisfaction with the service provided to local communities is increased from 67% to 75% in 2018
- **Public Attitudes Survey** – The proportion of people who feel that AGS treats all people equally, irrespective of background increased. Baseline to be established in 2017

(Public Attitudes Survey targets are measured against a 2016 baseline)
